## Career Objective

I offer a unique blend of creative, technical, and support-based services that span across IT support, ERP operations, digital systems, and administrative workflows. My goal is to contribute to a company's IT infrastructure with hands-on experience in system maintenance, user support, and process improvement.

## Professional Summary

Versatile IT & Digital Operations Specialist with 7.5+ years of total experience (including 3.5+ years formal), supporting businesses through system administration, ERP operations, and technical support. Skilled in troubleshooting, hardware/software setup, ERP data entry, and user support. Adept at managing in-house workflows, enhancing digital visibility, and ensuring smooth technical and administrative operations.

## Technical Skills

- **Office & Reporting:** MS Office (Word, Excel, PowerPoint, Outlook), Google Workspace, Excel automation, report generation
- **Document & Graphics + Video:** PDF editing, invoices, reports, posters, logos, labels, infographics, Photoshop, Illustrator, Filmora, Canva
- **ERP & Business Systems:** Data entry, file handling, install & support for ERP, POS, Garments, Payroll
- **E-Commerce Management:** Product listing, order/shipping handling, customer support, WooCommerce, WordPress
- **Programming Basics:** C/C++, C#.NET, HTML, CSS, JS, Bootstrap 4/5, jQuery, PHP, SQL
- **Web Development & SEO:** WordPress (Themes, Elementor, WooCommerce, LMS, Plugins, Payment Systems), SEO plugins
- **IT Support:** Windows/Linux OS install, user support, remote IT support, system maintenance, user training, network configuration, driver/software/hardware setup & diagnostics
- **Email & Communication:** Corporate email setup, bulk mailing tools, email automation, face-to-face communication, social media management
- **Networking & Security:** Laptop/PC IP configuration, LAN/router setup, file/printer sharing, firewall, antivirus
